

## PRODUCT DATASHEET

### PWF130 White Film

#### Technical data:

Weight	180 g/m <sup>2</sup>
Thickness	130 μ
Opacity	96 %
Storage	15-30 °C (40-60% RH)

Andy Hens

#### Description:

This high glossy, white film meets the highest standards required in digital photography. Amongst other things, the substrate has an extremely wide colour gamut and a high ink absorbing capacity. The glossy white surface is ideal for top-quality image motifs and the production of high-end products at the very top of the scale, including full-colour banners, advertising photos of luxury goods, such as in the cosmetics industry, as well as artistic portraits. It creates an appearance similar to that achieved on the old-established Cibachrome/Ilfochrome papers.

#### Sizes

Sheets		Rolls	Core	Rolls	Core
10 x 15	(102 x 152 mm)	32,9 cm x 30 m (13")	3" *	111,8 cm x 30 m (44")	3" *
